

Relevant and reliable knowledge

Society and operational environment

1

We produce relevant information and knowledge that can be linked to current societal debate.

Relevant and reliable knowledge

Society and operational environment

2

We actively encourage other actors in society to utilise the knowledge we generate.

Relevant and reliable knowledge

Society and operational environment

3

We have identified areas where our resources and content can contribute to research in different sectors and fields.

Relevant and reliable knowledge

Society and operational environment

4

We actively monitor the reliability of our data, and we handle it ethically.

Relevant and reliable knowledge

Strategic choices and goals

5

We have clearly identified and defined our research profile or research-enabling role.

Relevant and reliable knowledge

Strategic choices and goals

6

We maintain active connections with research networks.

Relevant and reliable knowledge

Strategic choices and goals

7

Our knowledge resources and content are available for research networks and projects.

Relevant and reliable knowledge

Communication

8

We are transparent in how we use, produce, and communicate knowledge and information.

Relevant and reliable knowledge

Communication

9

We ensure that our knowledge and information is accessible for diverse user groups by various means and channels.

Relevant and reliable knowledge

Communication

10

We keep our whole team informed about our research profile, our ongoing projects, and our research outcome.

Relevant and reliable knowledge

Collections and content

11

We consider and make accessible the range of diverse interpretations and perspectives related to our content.

Relevant and reliable knowledge

Collections and content

12

We allow and participate in critical discussion and debate about our content.

Relevant and reliable knowledge

Collections and content

13

We are actively addressing the provenance and the past of our collections and content.

Relevant and reliable knowledge

Collections and content

14

We are actively decolonising our data and knowledge resources.

Relevant and reliable knowledge

Opening and sharing

15

We curate and expand our knowledge and data together with our communities.

Relevant and reliable knowledge

Opening and sharing

16

Our knowledge and data are shared on relevant external knowledge platforms.

Relevant and
reliable knowledge

Opening and sharing

17

**We actively develop
and support open
science practices.**

Relevant and
reliable knowledge

Competences

18

**We have suitable
competences for
understanding,
handling, using and
disseminating the
knowledge that we
safeguard.**
