**Climate Heritage Network Announces New Members**

Charenton-le-Pont, France –The Climate Heritage Network is pleased to announce that an additional 45 organisations have become network members. The announcement was first made on 11 February at a meeting of the network’s International Steering Committee held in Abu Dhabi, UAE during the 10<sup>th</sup> World Urban Forum (WUF10) organised by UN-Habitat, the United Nations’ cities and human settlements program.

This immense power of arts, culture and heritage to drive just and transformative climate action often goes untapped. The Climate Heritage Network was launched in October 2019 in Edinburgh, Scotland by over 70 arts, culture and heritage organisations committed to unlocking this potential. The Network is expanding rapidly, as evidenced by the 45 new members. The impact of the expanding Network will further be strengthened under the terms of a new cooperation memorandum with UN-Habitat that was also signed during WUF10.

The Climate Heritage Network aims to unite diverse actors across the arts, culture and heritage spectrum as part of the climate action movement. Ms. Suwaree Wongkongkaew, Director of the Chiang Mai City Arts & Cultural Centre and a CHN Steering Committee member, described the CHN’s philosophy this way:

In Chiang Mai the connection between our culture, our life, and our environment is a mutual relationship, a strength, and inseparable. In the current situation, when we face climate problems that are rapidly escalating, the power of arts and culture can be used. We are working as a coalition to use cultural power to restore and protect the environment and cross the boundaries of familiarity, no longer separating government or general public.

The 45 new CHN members reflect this diversity and include national, regional and local government bodies; cultural institutions and indigenous peoples’ organisations, as well as NGOs, universities, businesses and artists. Several of the new members are themselves international networks, including NEMO - Network of European Museum Organisations and the International Music Council.

Climate change is a global phenomenon. The CHN works to connect groups around the world and to promote solidarity with communities on the frontlines of climate change. Reflecting this global commitment, the 45 new CHN members represent Australia, Canada, Ecuador, Egypt, Ghana, Greenland, Kenya, New Zealand, Pakistan and Zimbabwe, as well as the USA, United Kingdom and countries across Europe. Collectively, they draw from each of the CHN’s five regions: North America, Latin America and the Caribbean, Europe and CIS, Africa and the Arab States, and Asia-Pacific.

One hallmark of the CHN is the members’ commitment to working collaboratively. In 2019 the CHN released its first action plan at an event held in Madrid at COP25, the 2019 UN Climate Summit. Dubbed the Madrid-to-Glasgow Arts, Culture and Heritage Climate Action Plan, the plan’s release kicks off a year of culture-based climate action that will culminate in 2020 at COP26 in Glasgow, Scotland. The plan’s activities will be implemented by volunteer working groups made

up of CHN members. Dr Ewan Hyslop, Head of Technical Research & Science at Historic Environment Scotland and a Co-Chair of the Climate Heritage Network describes the value of the CHN approach this way:

Successfully transitioning to a low-carbon future and adapting to environmental changes already underway requires individuals, organisations, governments and communities to work together. The Climate Heritage Network provides an opportunity to develop new and creative partnerships, strengthen those that already exist and pool expertise and knowledge from all corners of the world. Together, we can demonstrate what meaningful climate action looks like, and share our experiences and perspective with others.

Climate change is one of the most significant and fastest growing threats to people and their cultural heritage worldwide. 2020 will be a critical year for climate action. The CHN aims to foreground the cultural dimensions of global climate action and to create a roadmap that will allow every arts, culture and heritage-related organization to do its part. The 45 members added today contribute immeasurably to that cause.

“With every conversation, every new partner, every opportunity, we advance greater solutions into action. Cultural heritage supports communities towards a low carbon, resilient future. Further, faster, together,” said Julianne Polanco, California State Historic Preservation Officer and a CHN Co-Chair.

#### **What is the Climate Heritage Network?**

The Climate Heritage Network is a voluntary, mutual support network of local and city, state/provincial and regional, Indigenous Peoples', and national arts, culture and heritage governmental and quasi-governmental boards, offices, ministries and site management agencies as well as NGOs, universities, businesses and other organizations committed to aiding their communities in tackling climate change and achieving the ambitions of the Paris Agreement. Entities may join at <http://climateheritage.org/join/>.

# Climate Heritage Network Announces 45 New Members *(11 Feb 2020)*

## Units of Government, Indigenous Peoples' Organisations

- Gullah/Geechee Sea Island Coalition
- Royal Commission on the Ancient and Historical Monuments of Wales
- SIMTUR (Italy)

## Universities/Higher Education

- City University of New York Graduate Center Human Ecodynamics Research Center
- Faculté de l'aménagement / Faculty of Environmental Design, l'Université de Montréal
- Graduate Program in Historic Preservation, Weitzman School of Design, University of Pennsylvania
- Norwegian Institute for Cultural Heritage Research (NIKU)
- Rochester Institute of Technology
- UCL Centre for Applied Archaeology, incorporating Archaeology South East
- UCL Institute for Sustainable Heritage
- University of Management and Technology, Lahore, Pakistan
- University of Oxford Heritage Network

## Cultural Institutions

- Australia ICOMOS NSCES
- Charlotte Library (USA)

## Cultural Institutions (cont'd)

- Dundee Heritage Trust
- Ecoartscotland
- Fondazione Sandretto Re Rebaudengo
- Fundacion Santa Maria la Real
- Heritage Trust Network
- Sisimiut & Kangerlussuaq Museum (Greenland)
- Society of Antiquaries of Scotland
- Venti di Cultura (Italy)

## Businesses, Artists, Design Professionals

- Carrig Conservation International LTD
- Dennis Rodwell, Architect-Planner, Consultant in Cultural Heritage and Sustainable Urban Development
- GJM Heritage
- Ingatestone Consulting
- International Heritage Conservation and Management
- Joseph K. Oppermann Architect
- Knowsley Safari
- MCR URBAN CONSULTING
- Museums Galleries Scotland
- PROSKENE Conservation & Cultural Heritage
- Yky

## NGOs/Civil Society

- An Taisce - The National Trust for Ireland
- Arab Center for Heritage
- DETRA-Africa (Kenya)
- Future for Religious Heritage (FRH)
- Heritage Innovation Trust (Zimbabwe)
- ICOMOS ISC20C
- International Music Council
- Interpret Europe - European Association for Heritage Interpretation
- National Trust for Scotland
- NEMO - Network of European Museum Organisations
- Opportunity Two Excel Foundation (Ghana)
- The Heritage Management Organization
